

“They Customized a Marketing Plan that Made Sense for My Business”

I have known and worked with Stokely and Bryan for 6 years. I was always impressed with their sales and marketing skills for their own businesses. This led me to seek their help in improving the sales and marketing of my own business, Heritage Construction and Home Improvement.

To get things started, Stokely and Bryan spent a large amount of time learning about my business. After collecting this information, they customized a marketing plan that made sense for my business. **Only days after putting this plan into action, I noticed a large increase in leads coming in from potential customers.**

It's not easy running a business like mine. The many responsibilities leave little or no time to focus on marketing. Stokely and Bryan have taken control of this area of my business. This has helped minimize any lulls in business and greatly improved our chances of long term success.

I have been very happy with their performance and look forward to a long lasting partnership with their company.

Sincerely,

Rex Waits, Owner
Heritage Construction and Home Improvement
